Peter Akerley, Erdene’s President and CEO stated, “As outlined in my letter to fellow shareholders, Bayan Khundii is poised to enter production as one of the highest-grade, open-pit mines globally, with low all-in sustaining costs. The project is coming online at a time when gold prices are testing historic highs, providing shareholders significant leverage to gold prices.”

Mr. Akerley continued, “This milestone comes only ten years after our geologists discovered high-grade gold at surface, making Bayan Khundii one of the fastest projects to make this transition in recent memory. Cash flow from Bayan Khundii will support further exploration and the advancement of our broader Khundii Minerals District portfolio, generating value for all stakeholders in the decades to come.”
